the plaintiff's declaration. William I. Carroll for the plaintiff and William II. Carroll for the city.

The first witness called was Fred II. Desmond, who testified to being born in this city, of being 18 years of apparent of having aftended the public schools of this city. He said he entered the school in the fall of 1914, but did not take the final examinations. He returned to the school about two weeks after school started in 1915 and took the courses of latin. English and Irish lijstory-independence in school until November. He said he left school in 1915. He said he left school in 1915 to go to work and returned to school two weeks after school started the following year. He applied to Mr. Irish, the principal, who asked him what he wanted. Continuing witness said Mr. Irish told him he would not take him back, and he did not.

Witness testified to going to Boston College high school for a few months afterwards. Prior to the time he was excluded from the school the young man said his relations with classmates were all right, but that afterwards their attitude changed. In cross examination witness said probably 2500 people stopped him on the street inquiring why he was not going to high school.

WASHINGTON, April 25—The house and senate resumed debate to-day of the army bill. House leaders hoped to reach a vote by Friday but this appeared by no means certain since more than 80 members still were to be heard, including Speaker Clark who was to speak today in opposition to a draft provision.

In the senate a similar situation existed. Many senators wanted to express their views on the bill-before consenting to a vote and leaders dislike to resert to the new rule under which debate may be limited. Chairman Chamberlain, of the military committee, expected to assertain sentiment in the senate today, however, on an agreement to set a time for voting.

# CONGREGATIONALISTS AT I CHELMSFORD CENTRE

The Central church at Chelmsford Centre was the scene vesterday afternoon and evening of the annual meeting of the Andover Association of Congregational Churches and Ministers. The afternoon session was opened at 2.45, with a devotional service led by Rev. F. W. Tingley of Dracut.

There was a business session at 3 o'clock, when raports of officers and committees were received. Rev. E. C. Bartlett of Dracut, the moderator, presided. Rev. A. H. Fuller of Ballardvale read the minutes of the previous meeting, which was held in Lawrence. Mr. Fuller also reported as treasurer. His reports were accepted.

Rev. Sarah A. Dixon, the statistical secretary, was unable to be present. She sent a report of increase in membership, in the different, churches, which was read by Rev. F. A. Wilson of Andover.

bership, in the different churches, which was read by Rev. F. A. Wilson of Andover.
Rev. Newman Matthews of Andover read a report on the work of churches, dealing particularly with the tercentenary program in the churches, and the results of evangelism, which have been exceedingly gratifying.

Increases in pastors salarles were reported, the largest being a \$500 annual increase to Itev. E. Victor Bigolow of the South Andover church, formerly of Eliot church, Lowell. New and interesting methods of work were also reported from the various churches. The report also included the changes in pastorates during the year, and reference was made with proper eulogy to the death of Rev. Mr. Loveloy of the South church, Lawrence.
Rev. E. V. Bigelow reported for the advisory committee. He made reference first to the serious illness of ASA C. Russell, a member of this committee.
Rev. R. G. Clapp, reporting for the camal banks in the interest of life saving, and the appeals for prohibition as a war measure, in the interest of

A recommendation was accepted by voto of the association, that Rev. F. W. Tingley of Draout be dismissed, as requested, from this association, and recommended to the Boston presbytery of the Presbyterian church. It was further recommended by the committee on ministerial standing that Rev. Arthur Stanley Beale be accepted as, a member of this association, and it was so voted, Mr. Beal bringing a letter from the Wohurn association. Being called upon. Mr. Beale came forward and greeted the members of the association.

LOCAL BUNCH TOOK COUNT AGAIN LAST EVENING - HASKETBALL SEASON OVER

Basketball sang its swan song for this season in Lowell last night, when the Lowell Five was defeated for the second time by the All Stars of Boston, a crack aggregation picked from greater Boston teams. The score was 22 to 16, the Hub quintet showing the same ratio of superiority as last week, when they captured the game, 20 to 14. Earlier in the season the All Stars could never have beaten the Lowell Five, constituted as it was last

All Stars could never have beaten the Lowell Five, constituted as it was last aight, but although last night's combination was the same man for man as has represented towell most of the season, it was a different team in spirit and aggressiveness.

The All Stars played a better passing game, worked faster, shel better and thought quicker, which four requisites just about spell victory. Although Lowell was always within hailing distance of the Hub men there never was a time during the three periods the locals looked capable of pulling out a win. The first period ended 5 to 3 in favor of the All Stars; the second period found then leading 13 to 7, and it was 22 to 16 at the close. The game produced any number of thrills. Paddy Grant and Kid Allison were the stars for their respective teams and both men played sterling basketball. Grant shot five baskets and worked all over the Boor, white Allison was in every play, followed the ball like a flosh and caged one pretty basket. Two of P. Grant's baskets were back one-hand tosses, and Bucky Lew shot one gem for Loweli, While Paul Clark was in the game in caged three baskets and Mulvanity accounted for the other one.

McCluskey To the Manor Born

There's no denying the fact that as a candidate to the coming constitu-tional convention William J. McCluskey is to the manor born. In the nowspapers a few days ago he announced a series of meetings next week at which he proposes to discuss certain important constitutional questions which are to come up in the convention, and I find in the columns of the Old Sun the news that "Bill" was discussing constitutional questions as far back as quarter of a century ago, for the old Sun tells us that as a member of the Philomatic club of Holy Cross college, at that time, he was one of the crack debaters and appeared on the negakey is to the manor born. Says The Sun of quarter of a century ago:

"On Wednesday evening about 100 friends of Mr. Thomas Connors, of 118 Market street assembled to celebrate his return from the old country, Music, dancing, etc. were enjoyed during the evening together with a genuing Irish hermpipe by Roddy Connor, the famous pitze dancer of Sligo, Ireland, Music was furnished by Dominick Molioy's full band, Soveral songs and reditations were given by Michael Bruce, Thomas Nearney, James Cunningham, while Miss Margie Marron and Jane Connor tembered a pleasing duet. Refreshments were served and a jolly time was rejoyed until a late hour."

But ith easily known they were not a Kerry crowd, or Jimmic Rourke's orchestra would have been there. The 20th century reserver would have described Fominick's band as a complete unit which would eliminate the possibility of a false impression.

THE OLD TIMER.

BOSTON, April 25.—Commander G. G. Mitchell, in charge of enrollments for the naval reserve, stated yesterday that no more men would be called to the reserve bases until preper accommonations can be provided.

This means that the young men who have enrolled will have to wait at home for some time before they are called. There is a lack of equipment, particularly motor boats for the men. The bases are also ropidly filling, and until new bases are located few men can be called to active rervice.

The attention of mayal interest was turned today to the aviation branches. It has been decided that the Squantum aviation school will open early in May, and will work in conjunction with the aviation base at Marbhened, conducted under the auspices of Lieut. Godfrey Cabot.

CIALIST MINORITY OF HELPING GERMANY'S ENEMIES

AMSTERDAM, via London, April 25—The recent strike movement in Germany was discussed at a meeting mittee at which Count Westarp, leader eral Groener's declaration that further attempts to interfere with munitions

attempts to interfere with munitions work would be ruthlessly suppressed. Count Westarp insinuated that money had played a part in the strike and accused the socialist minority of playing the game of Germany's enemies. He denied that the trouble was caused by lack of feed.

The socialists indignantly denied the insinuation that bribes had been used and placed the blame for the strike on the administration of the Spandau works, the fact that the Spandau works, the fact that the bread had been decreased and the agrarian policy. One speaker declared that the agrarians owing to the high price of cattle fed them with bread and corn which the munition workers could not obtain.

#### WANTS LIGHT ON HOME RULE

Lord Northeliffe appeals to America for an expression of public opinion on the Irish home rule question. The noble lord appears to be the day! strangely ignorant of the American policy on such matters as that of self government for Ireland. He does not seem to realize that England has made herself ridiculous in the eyes of the world over this question of granting home rule to Ireland.

In this country there is an all pervading belief in majority rule and wherever that principle obtains, the British method of allowing a small minority to exercise a veto power upon what the majority shall get, seems this year the towest price reached has altogether too absurd to be countenanced by any nation claiming to be democratic.

In the home rule measure now on the statute books of England, there year was highest in August of 1916 is the most ample provision against unfair treatment of the minority by the majority. With such safeguards why listen to the profests of a minority less than one-fourth of the population and whose objection is based upon religious intolerance? This is another undemocratic principle for which Lord Northcliffe will find no precedent in the fixed policies of the United States. If the Ulster minority feels that it might be unfairly dealt with in a new Irish parliament-a belief which if it exists is wholly unjustified—surely it can rely upon the imperial parliament to protect it in its rights. But the nationalists have repeatedly given the most sweeping pledges that nothing of the kind can is neutral. She has shown but little ever happen. They agreed that all the safeguards the Uister men want proofs of neutrality in her negotiating shall be included in the bill, yet in spile of all this, the government basely betrayed the Irish parliamentary party and its distinguished leader who like millions of other Irishmen placed full confidence in the promises of British statesmen only to be bitterly disappointed.

But if Lord Northcliffe wants expressions of public opinion from this country, he should get them by all means. But has it escaped his attention that there is searcely a state legislature in the United States that has not gone on record at some time in favor of self government for all of Ireland, not for any particular part to the exclusion of the rest of the country?

The manner in which England has muddled this whole question stands before the world as a national reproach to the British nation, an open denial of justice long promised, and one for which there is no justification. Does it impede England in the war? Of course it does. How could it be otherwise when the joyous bopes of the whole Irish race have been dashed down as on many former occasions by an act of is not likely that any legal authority

## THE CAUSE OF GOUY, BRIGHT'S DISEASE, RHEUMATISM

(By VALENTINE M. PIERCE, M.D.)

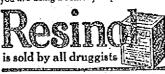

According to the consensus of opinion of most medical men and sclentists, such as Garrod, Minkowski, Hans, Vogt and Reach, the cause of gout is due to an accumulation of uric acid in the blood. The same effect happens in rheumatism, and preceding the stage known as Bright's disease an auto-intoxication process has been going or, the liver and kidneys could not do the work and the individual suffers the consequences. High living, the eating of meat more than once a day, overeating, frequent chilling of the body—all may contribute to the poleoning. In such cases the very best treatment is to prevent or remove the cause. Diet and exercise it possible; drink plentifully of water—a pint of hot water with a piece of Ismon squeezed into it morning and night, and take before meals a tablet of Americ (doitble strength). This Americ can be obtained at almost all drug stores and it drives the uric acid out of the system by stimulating the kidneys to better action. This many cases of gout, of recumatism or Bright's disease may be prevented or cured by taking this simple remedy in time, and in the poinful and serious cases of rheumatism and gout it invariably relieves and often cures the worst cases.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to soek railof two or three times during the hight, when you sufer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is had, ask your drugsits for, Americ, I have found in practice that Americ is more potent than lithia and in most cases them.

Gordeling
Come into the garden, Maud,
And bring out the rake and the hor,
For it's up to us all this year
'To see what we can grow.
I can spade up the ground myself,
Or at least I think I can,
But if in the soil there is too much toil,
I shall have to hire a man.

Bring out the seed hox, Maud,

With the seeds the congressman sent.
We can't spend our money for seeds
this year,
We shall need it to pay the rent.
Let's hope that the labels are right,
And that when we plant Swiss chard
We shan't see parsnips come up instead,
For that would be very hard.

Now shoo out the chickens, Maud,
And keep a sharp eye on the pup,
You'll hear him yelp if he lends his hei
Toward making the seeds come up!
You shall do all the weeding, Maud,
Till the garden work is through,
And I'll smoke my cigar, wherever yo
are.

And tell you what to do.

bulletin from the national emergency food garden commission of Washington.

This particular house occupies the total frontage of a lot 25 feet wide. Behind the house is a yard extending back 70 feet to an alley. In the rear of the yard is a small teel shed, 5 by 10 feet in dimensions. The alley is cut off from the yard by a tight board fence, and the sides of the yard, from the house to the alley, are also bounded by fences of the same sort.

The owner of this property has laid the back yard off as a permanent farden. The side fences have been made to act as trellises for grape vines, having 14 of these vines planted at 10-foot intervals. Down each side of the yard, parallel to the side fences and 4 feet away from each, run walks, 2 1-2 feet wide, from the house to the alley, one of the walks turning around the shed to meet the other walk at the extreme rear of the yard.

In the space between the walks, a space of 12 feet wide, is the vegetable garden proper. The owner, however, does not give up his back yard entirely to the garden. Immediately behind the house between the two walks is a concrete pavement 5 feet wide (the distance between the ward, opposite the shed, he has made his permanent asparagus hed in a space 3 by 7 feet.

The rest of the garden is given over to close-growing, lew and quick-maturing vegetables, such as radishes, onloss and heans. He finds room fer 30 rows of these, each row nearly 12 feet long.

can't he benten. Donovan who has
visited Lowell many a time, is still
the same quiet, finny, effective Irish
comedian, and Miss Lee is as airy and
graceful as a butterfly. They play to
gether beautifully. For pantomimic
comedy, let one commend you to "The
Broken Mirror," which is played by
the Schwarz Brothers. It is one of
the best things of the show, and that
is rating it very highly. And La Pilarica, the Sponlsh dancer, who came

OPERA HOUSE

In this week's presentation of Charles Sumner's consational drams, "The Natural Law" by the Emerson Players, Clay Clement, the new leading man of the company rises to dramatic heights seldom reached by any of the well-known local stock stars of the bast. His work Is most commendable and stamps him as an actor of real worth. His efforts are sure to win him many new friends during the week's engagement, Aun O'Day, whose work is invariably many degrees above the average, is seen in a part that offers her rare chance to display her dramatic ability and her secone in the second act is a truly clever bit of act-

Pape's Diapepsin" Relieves Stomach Distress in Five Minutes.

Wonder what upset your stomach—which portion of the food did the damnage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and cructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to help neutralize ucidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened and they cat their favorite foods without fear.

If your stomach doesn't take care of BOSTON, April 25.—Mayor Curley and the Boston sinking fund commissioners have decided that the city should assist in the lipancing of the war by hivesting a part of the sinking funds in the new government bonds. The commission will subscribe for the hands

If your stomach doesn't take care of your fiberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pane's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly proposed at the proposed series is the formentation, and large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.

COPENHAGEN, April 25 via London-The visit of the Turkish vizier, Taalat Bey, to Berlin, according to the Lokal Anzeiger, will occasion a discussion at German headquarters of the situation as affected by Russian developments. The Constantinopie correspondent of the Tagerblatt also attributes high importance to the

visit.

The fact that Taniat Bey was not received on his arrival by Chancellor von Bethmann-Hollweg or Foreign Secretary Zimmerman caused observers here to take a different view. The opinion is expressed that the vizler's irp is most likely to be connected with Turkish troubles and in the nature of an appeal for bein. ture of an appeal for help.

"In the past it has been necessary on like occasions for me to explain the constraint The Associated Press was under to observe the strictest neutrality on all controversial points due to the varied and manifold opinions of its membership.

"Today, thank God, this is not necessary, but the contrary is true, for no trace of neutrality is coursing in our velus, but red blood, and red blood alone.

"Today neutrality has been cast aside and we, in common with all true. Americans, are standing with our cousins to the north and those across the sea who, under many flags are battling that government of the people, by the people, and for the people shall not perish from the earth."

AMSTERDAM, April 24, via London.

Major Morahit, writer in the Tages Zeitung, says that the results of the French offensive are unimportant. Major Morahit writes:

"The possession of single portions of terrain, such as Irenches, villages and borders of weeds no longer plays a decisive role in deeply ocheloned and fortified zones. The aim of the German defense is, even at the cost of abandoning the dead together with war materials and portions of positions, to maintain our own strength while destroying that of the cening and preventing him from attaining his strategizal aim, which is to break through. For this purpose it is necessary to keep the fighting line mobile.

"Tactical success in modern battles is not judged by the gain of single portions of terrain or the amount of booty but depends on the complete physical and moral disorganization of the enemy, owing to their loss of strength

through the destructive effect of artillery fire. This aim has hitherto been fully attained by the Germans in the gigantic struggle on the western front. The first and greatest attacks of the English and French failed, being choked by the blood of the attackers.

#### How Ladies Improve Looks!

"Many ladies, old and young, suffer a round of torture with their nerves, and many are so frail, thin and bloodless that their splendid features are lost sight of, while a vain attempt to conceal the angularity of the figure deceives no one but themselves and really excites the plty or ridicule of the world." said a well known largely employed practicing physician, in a recent lecture at a young ladies' college. "I do not mind exposing a little secret of mine to all such, as it can do no harm and may result in much happiness and health. It is simply this: Any thin, bloodless, nerve-tortured man or woman can become as fit as the fittest by taking regularly for several months an easily obtained pharmaceutical product known by the profession and pharmacists as three-grain hypo-nuclane tablets, put up in sealed packages with directions for home use."

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

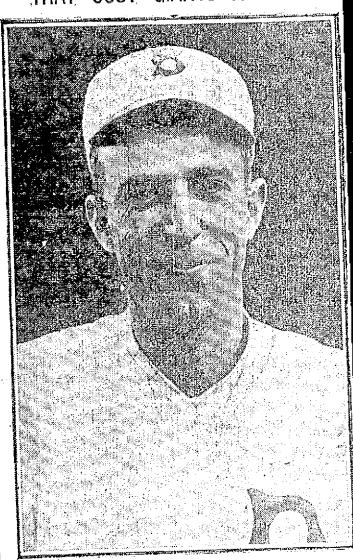

Convincing Proof of This Fact.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga.-"I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited".—Mrs. W. E. Lindsey, R. R. 3, Tennille, Ga.

LEFT, TO RIGHT, CHARLES H, TOWNE, HERMANN HAGEDORN PORTER. EMERSON BROWNE, JULIAN STREET The objects of the Vigilantes, a new-ly organized patriotic society, are as follows: To arouse the country to a realization of the importance of the prob-lems confronting the American people.

To awaken and cultivate in the To awaken and cultivate in the youth of the country a sense of public service and an intelligent interest in citizenship and national problems. To work vigorously for preparedness—mental, moral and physical.

To work with especial xigor for universal military training and service as a bosic principle of American democracy.

The tigilantes are organized to produce from writers and artists the livest sort of articles, poems or carbons on whatever phase of America's present situation seems to the individual contributor most vital.

Writers and artists who desire to offer for service to their country that weapon which is said to be mightier. THOMAS C. DESMOND

LONDON. April 25—Despatches from Petrograd report that the revolutionary spirlt is manifesting itself in a despatch to the Expression of civilians from Petrograd is reported in a despatch to the Expression of Russia, hinging the long standing agrarian troubles to a kead. Notwithstanding the organization of food committees which are doing their hest to make the peasants understand that the land question cannot be wisely settled until the constituent assembly is elected, the peasants are inclined to take the match their rural homes. Soldiers visiting their rural homes with or without leave, spread the news of the revolution and load the peasants against the land owners. This is chiefly the case in the Sarratov government, where the people often are inclined to be turbulent. The peasants here, after passing resolutions of confiscation have proceeded to take the civil as government. The peasants announced that the land owners as way.

# CONGREGATIONALISTS AT CHELMSFORD CENTRE

The Central church at Chehnsford Centre was the scene yesterday afternoon and evening of the annual nucling of the Andover Association of Congregational Churches and Ministers. The afternoon session was opened at 2.45; with a devotional services led by Rev. F. WATingley of Dracut.

There was a business session at 3 o'clock, when reports of officers and committees were received. Rev. E. C. Bartiell of Dracut, the moderator, presided. Rev. A. H. Fuller of Ballardvale read the minutes of the previous meeting, which was held in Lawrence. Mr. Faller also reported as treasurer. His reports were accepted.

Rev. Sarah A. Dixon, the statistical secretary, was unable to be present. She sent a report of increase in mambership in the different churches, which was read by Rev. F. A. Wilson of Andover.

Rev. Newman Matthews of Andover read a report on the work of churches, dealing particularly with the tercentenary program in the churches, and the results of evangelism, which have been exceedingly gratifying.

Increases in pastors' salaries were reported, the largest being a \$500 annual increase in pastors' salaries were reported, the largest being a \$500 annual increase in pastors' salaries were reported, the largest being a \$500 annual increase in pastors' salaries were reported, the largest being a \$500 annual increase in pastors' salaries were also reported from the various churches. The report also included the changes in pastorates during the year, and reference was made with proper eulogy to the South church, Lawrence.

Rev. E. V. Bigelow reported for the advisory committee. He made reference first to the serious illness of Asa C. Russell, a member of this committee.

We shall gladly send complete sets of the series to those desiring them.

In most businesses, where the human element plays an important part, the product can be supervised during manufacture and inspected before delivery.

In the telephone business, the work of our "weavers of speech," although constantly supervised, stands as a finished product. Deficiencies are detected in two ways: first, by our own supervision (which, although strict and constant, necessarily cannot be complete); second, by reports from our customers.

On this inspection and these reports we largely base our plans for service improvements. Therefore, we request telephone users, having service criticisms to make, to notify the chief operator as soon as possible after the occasion for criticism. Almost any error in a toll connection can be ascertained from the records, but a local call loses its identity so quickly as to be practically undiscoverable unless traced AT ONCE.

Constructive criticism is helpful. We wellcome it when it is specific-when it describes when, where and how the trouble occurred, and especially when it so closely follows the error as to enable us to place the responsibility therefor and apply the proper corrective.

LOCAL BUNCH TOOK COUNT AGAIN LAST EVENING - BASKETBALL SEASON OVER

Basketball sang its swan song for this season in Lowell last night, when the Lowell Five was defeated for the second time by the All Stars of Boston, a crack aggregation picked from greater Boston teams. The score was 22 to 16, the Hub quintet showing the same ratio of superiority as last week, when they captured the game, 26 to 14. Earlier in the season the All Stars could never have beaten the Lowell Five, constituted as it was last night, but although last night's com-hination was the same man for man as has represented Lowell most of the

bination was the same man for man as has represented Lowell most of the season, it was a different team in spirit and aggressiveness.

The All Stars played a better passing gume, worked faster, shot better and thought quicker, which feor requisites just about spell victory. Although Lowell was always within halling distance of the Hub men there never was a time during the three periods the locals looked capable of pulling out a win. The first period ended 5 to 3 in favor of the All Stars; the second period found them leading 13 to 7, and it was 23 to 16 at the close. The game produced any number of thrills. Paddy Grant and Kid Allison were the stars for their respective teams and both men played sterling basketball. Grant shot five baskets and worked all over the floor, while Allison was in every play, followed the hall like a flash and caged one pretty basket. Two of P. Grant's baskets were back one-hand tosses, and Bucky Lew shot one gem for Loweli. While Paul Clark was in the game he caged three baskets and Muvanity accounted for the other one.

## WANTS LIGHT ON HOME RULE

Lord Northeliffe appeals to America for an expression of public opinion on the Irish home rule question. The noble lord appears to be the day! strangely ignorant of the American policy on such matters as that of self government for Ireland. He does not seem to realize that England has made herself ridiculous in the eyes of the world over this question of granting home rule to Ireland.

In this country there is an all pervading belief in majority rule and wherever that principle obtains, the British method of allowing a small minority to exercise a veto power upon what the majority shall get, seems this year the lowest price reached has altogether too absurd to be countenanced by any nation claiming to be

In the home rule measure now on the statute books of England, there year was highest in August of 1916 is the most ample provision against unfair treatment of the minority by and was exhausted in March. In the majority. With such safeguards why listen to the protests of a minority less than one-fourth of the population and whose objection is 5,000,000 eggs on August 1. It is not based upon religious intolerance? This is another undemocratic prin- likely that August 1 of this year will ciple for which Lord Northeliffe will find no precedent in the fixed policies of the United States. If the Ulster minority feels that it night be unfairly dealt with in a new Irish parliament—a belief which if it exists is wholly unjustified-surely it can rely upon the imperial parliament to protect it in its rights. But the nationalists have repeatedly given the most sweeping pledges that nothing of the kind can ever happen. They agreed that all the safeguards the Ulster men want shall be included in the bill, yet in spile of all this, the government basely betrayed the Irish parliamentary party and its distinguished leader who like millions of other Irishmen placed full confidence in the promises of British statesmen only to be bitterly disappointed.

But if Lord Northeliffe wants expressions of public opinion from this country, he should get them by all means. But has it escaped his tion on the part of our government. attention that there is scarcely a state legislature in the United States that has not gone on record at some time in favor of self government for all of Ireland, not for any particular part to the exclusion of the rest of the country?

The manner in which England has muddled this whole question stands before the world as a national reproach to the British nation, an open denial of justice long promised, and one for which there is no in his garden on Sunday, if he sees justification. Does it impede England in the war? Of course it does. How could it be otherwise when the joyous hopes of the whole Irish der to live and maintain his family, it race have been dashed down as on many former occasions by an act of is not likely that any legal authority treachery?

It is just as well for Lord Northeliffe to convince his government and his king that until England grants Ireland home rule she cannot claim the right to be classed with the United States, France and Russia as a democratic nation; nor while the question remains unsettled can she reasonably expect the enthusiastic loyalty of the Irish people at home or abroad. She has already paid an enormous price for her partiality to Ulster and her hetrayal of Mr. Redmond.

Certain kinds of work on farms such as weeding, hoeing and spraying can be done as well by boys as by men. Hence it is reasonable to look for excellent results from this new move by the committee on public safety.

This is a recruiting campaign in which every boy can be urged to enlist. We are opposed to the enlistment of greater production on the tarms, on of mere boys for service in either the army or the navy. As war is conducted nowadays they cannot stand the hardships to which they will be subjected. Most of the wars of modern times were mere child's play compared to that which is now in progress in Europe. Life in the trenches is but one of many forturing features of the warfare that is altogether too severe for the youth of seventeen or eighteen, it is said that a boy can shoot as well both liberal financial aid, especially as a man. But a hoy cannot stand the cold, the hunger, the long nitions which will be used where they marches, the life in the trenches where men have to live, often knee deep in mud, with the bodies of their dead comrades scattered around them. Boys of the high school and others of that age should be glad to have the opportunity to serve their country where they will not be exposed to danger, and where instead of hearing the roar of cannon and the groans of the wounded and dying, they will hear the aweet music of singing birds; where they can enjoy the ineffable charms of Nature, the pure air and the sunshine of heaven, with all the blessings of peace, and yet render laudable service to their country in helping to increase the production of crops needed to fred the people-to feed our army and navy and if we have any to spare,

With the plan of campaign mapped out no time will be lost in putting it into operation. The U-boats are having their daily toll and are carrying on their ruthlessness to the bitter extreme; but the day of reckoning is not far off. With the defeat of the submarines the last hope of German victory will vanish. Speed

E. C. WILSON

E. C. WILSON

The other day Mr. E. C. Wilson. of No. 43 East Pine street, a popular employe of one of the largest lumber firms in Lowell, stated.

"I have been troubled for the past ten years with a sour stomach and indigestion; no matter what food I atte, it would give me the greatest distress afterward; I had sentely any appetite, and what little I could eat side me no good. My kidneys were affected, and I had terrible pains across my back. I was hadly constipated, and tried all kinds of medicine, but nothing relieved mo. I never could sleep at night and fell weak and miserable. I heard of Plant Juice and decided to try it. Now after taking it for a short time. I am feeling the best I have in years, I sleep well and have a great appetite for all of my meals; my bowels are regular and I have no more trouble with my kidneys. I am more than satisfied with the result of Plant Juice in my case, and sim slad to recommend it to others."

The Plant Juice Man is at Dows, The Druggist's, in Merchanck Squire, where is is daily meeting the local public, and introducing and explaining the merits of this remeay.

## THE CAUSE OF GOUT, BRIGHT'S DISEASE, RHEUMATISM

(By VALENTINE M. PIERCE, M.D.)

According to the consensus of opinion of most medical men and solentists, such as Garrod, Minkowski, Hans, Vogt and Reach, the cause of gout is due to an accumulation of uric acid in the blood. The same effect happens in rheumatism, and preceding the stage known as Bright's disease an auto-intoxication process has been going on the liver and kidneys could not do the work and the individual suffers the consequence. High living, the cating of meat more than once a day, overeating, frequent chilling of the bodyall may contribute to the poisoning. In such cases the very hest treatment is to provent or remove the cause. Diet and exercise if possible; drink plentifully of water—a pint of hot water with a piece of lamon squeezed into it morning end night, and take before meals a tablet of Anuric (double strength). This Anuric ran he obtained at almost all drug stores and it drives the uric acid out of the system by stimulating the kidneys to better action. Thus many cases of gout, of rheumatism or Bright's disease may be prevented or curred by taking this simple remedy in time, and in the guintul and serious cases of rheumatism and gout it invariably relieves and often cures the worst cases.

I have found in practice that Anuric is mere potent than lithle and in most cases it will dissolve the uric acid as hot water does sugar.

Miner-Doyle Orch. Associate, tonight

The Sun is conducting this col-umn with the co-operation of the National Emergency Food Garden Commission, to inspire the planting of more food gardens throughout the country. You should watch this column every day. Any ques-tions should be written on one side of the paper and sent to the Garden Editor of The Sun.

#### MODEL

The department of agriculture has found in one of our eastern cities a back-yard/garden which it regards as a model. This back yard is of a kind typical in cities which built houses on narrow frontages with common side walls, the houses being open to the air only in front and back, says today's bulletin from the national emergency food garden commission of Washington.

builetin from the national emergency food garden commission of Washington.

This particular house occupies the total frontage of a lot 25 feet wide. Behind the house is a yard extending back 70 feet to an alley. In the rear of the yard is a small tool shed, 5 by 10 feet in dimensions. The alley is cut off from the yard by a tight board fence, and the sides of the yard, from the house to the alley, are also bounded by fences of the same sort.

The owner of this property has laid the back yard off as a permanent sarden. The side fences have been made to act as trellises for grape vines, having 14 of these vines planted at 10-foot intervals. Down each side of the yard, parallel to the side fences and 4 feet away from each, run walks, 2 1-2 feet wide, from the house to the alley, one of the walks turning around the shed to meet the other walk at the extreme rear of the yard.

In the space between the walks, a space of 12 feet wide, is the vegetable garden proper. The owner, however, does not give up his back yard entirely to the garden. Immediately behind the house between the two walks is a concrete parement 5 feet wide and running back from it a grass plot is feet long and 12 feet wide (the distance between the walks).

In the rear of the yard, opposite the shed, he has made his permanent as paragus bed in a space 3 by 7 feet.

The rest of the gardeu is given over to close-growing. Iow and quick-maturing vegetables, such as radishes, beets, lettuce, carrots, parsains, geas, onlong and beans. He fluds room for 20 rows of these, each Tow nearly 12 feet long.

# What To Do When Backache Comes On

#### Many People Find Quick Relief in Foley Kidney Pills

When backache comes on, and it seems as if you can't stand the pain and pressure in your back and sides, do not feel that you must keep on suffering till it wears itself out. It is more apt to wear you out and seriously affect your general health.

seriously affect your general health.

Get n bottle of Foley Kidney Pills and start taking them at once. They usually help from the very first doses. For backache is one of nature's darger signals that your kidneys are not in a sound and healthy state, that they are wrong; and when your kidneys are wrong, you may be sure you face a scrients condition.

Poley Kidney Pills have a direct and beneficial action on the kidneys bladder and urinary organs. Their effect is quichly fold in improved kidney and bladder action, and in the parsing away of those painful and palarming symptoms. the hair and scalp thoroughly. Simply the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruft and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and siky, bright, lustrous, fluffy and easy to manure.

You can get mulsified cocoanut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv.

Ruddy Cheeks-Sparkling Eyes -Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on Palm, the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly

for a time and note the pleasing results.

WASHINGTON, April 25.—Elihu Root will head the American commission to Russia if he will consent to undertake ine duly. It became known yesterday that the president has completed his selection of the principal members of the commission.

The names of the men tentatively chosen to make up the commission will not be made public until they have been formally requested to serve and have accepted.

It was said yesterday, however, that the men whom the president has in mind are all distinguished in their particular lines, and together will make up a commission which will indicate to the Russian government and people the deep interest in their welfare held by the American government.

Among those besides Mr. Root whose names have been mentioned in the preliminary discussion are Ocean Straus, former socretary of commerce and labor; Edward R. Hurley, former chairman of the trade commission, and Hentry Morgenthau, former ambassador to Turkey.

make up the balance of the picture performance.

Last to be mentioned, but not the least is the final episode of "Patria," with Mrs. Vernon Castle and Mitton Sitis. This opiode is one fitting climax to the excellent photoplay attraction, and this will be your last chance to see the noted Mrs. Castle the heroine who played such a daving "Patria." This serial is still new and, will again be shown in Lowell and surrounding flowing, but the Royal was the first theatre with enough enterprise to show it—Brst. Some exhibitors will book a picture after its usefulness is run out, but the Royal management will take the truthle and expense to show this fine stuff fresh from the makers. So, however, today and temorrow is farewell to "Patria" and the excellent players that have made this serial one of the greatest ever filmed. "The Mystery of the Double Cross" is shown every Friday and Saturday—remember this.

May 1. There was a noticeable increase in the number of applications for junk collectors' licenses. It was expected that the remainder of the applications for liquor licenses, would be acted upon, but there was nothing doing in that line, or at least nothing was made public, Maurice O'Donnell and Paul II. O'Donnell, of the firm of M. O'Donnell & Co., fourth class liquor dealers with a place of business at 135 Salem street, appeared before the board on a complaint charging them with a violation of the liquor law by selling liquor to a minor, Edward Couture, aged 17 years, on the night of April 18.

The testimony submitted was practically the same as, that, offered before Judge Enright in police court yesterday morning which resuited in the acquittal of Maurice O'Donnell and the imposing of a fine of \$50 on the son. Supt. Welch and Patrolman Patrick II. Bugley testified that this was the first complaint ever issued against the place in question. The heard took the matter under advisement.

WASHINGTON. April 25—The house and senate resumed debate today of the army bill. House leaders hoped to reach a vote by Friday but this appeared by no means certain since more than 90 members still were to be heard, including Speaker Clark who was to speak today in opposition to a draft provision. In the senate a similar situation existed. Many senators wanted to express their views on the bill before consenting to a vote and leaders dislike to resort to the new rule under which debate may be limited. Chairman Chamberlain, of the military committee, expected to ascertain sentiment in the senate today, however, on an agreement to set a time for voting.

An alarm from box 85 at 5.30 o'clock this morning summoned a portion of the fire department to a lively blaze in a house at 124 Bartlett street, owned by Beatrice J. Maxwell and occupied by J. LONDON, April 25—Despatches from Petrograd report that the revolutionary spirit is manifesting itself. In the rural districts of Russia, bringing the long standing agrarian troubles to a head. Notwithstanding the organization of food committees which are doing their best to make the peasants understand that the land question cannot be wisely settled until the constituent assembly is elected, the peasants are inclined to take the matter into their own hands.

Soldiers visiting their rural homes will nor without leave, spread the news of like revolution and lead the peasants against the land owners. The sacroty government, where the people often are inclined to be turbulent. The peasants here, after passing resolutions of confiscation have proceeded to take possession of the lands and drive the land owners away.

The peasants announced that they will undertake the kept land owners away.

The peasants announced that they will undertake the spring sowing themselves but owing to the lack of t

# CONGREGATIONALISTS AT I CHELMISFORD CENTRE

The Central church at Chelmsford Centre was the scene yesterday afternoon and evening of the annual meeting of the Andover Association of Congregational Churches and Ministers. The afternoon session was opened at 2.45, with a devotional service led by Rev. F. W. Tingley of Bracul.

There was a business session at 3 of look, when reports of officers and committees were received. Rev. E. C. Bartlett of Dracul, the moderator, presided. Rev. A. H. Fuller of Ballardvalo read the minutes of the previous meeting, which was held in lawrence. Mr. Fuller also reported as treasurer. His reports were accepted.

Rev. Sarah A. Dixon, the statistical secretary, was unable to be present. She sent a report of increase in membership in the different churches, which was read by Rev. F. A. Wilson of Andover.

bership in the different churches, which was read by Rev. P. A. Wilson off Andover.

Rev. Newman Matthews of Andover read a report on the work of churches, dealing particularly with the tercentenary program in the churches, and the results of evangelism, which have been exceedingly gratifying.

Increases in pastors salaries were reported, the largest being a \$500 annual increase to Rev. E. Victor Bigelow of the South Andover church, formerly of Eijot church, Lowell. New and interesting methods of work were also reported from the various churches. The report also included the changes in pastorates during the year, and reference was made with proper sulogy to the death of Rev. Mr. Loveicy of the South church, Lawrence.

Rev. E. V. Bigelow reported for the advisory committee. He made reference this to the serious illness of Asa C. Russell, a member of this committee.

Rev. R. G. Clapp, reporting for the committee on social survey, spoke particularly on the work of safeguarding the canal banks in the interest of life saving, and the appeals for prohibition as a war measure. In the interest of

the canal banks in the interest of ited average, and the appeals for prohibition as a war measure, in the interest of confervation of food; also the successful effort to defeat the movement to establish a saloon opposite the new parkway and the city hall.

Despite George Foster's assertions that he is "right" his short stay against the Yankees Monday demonstrated his unfliness for duty on the firing line at present. He worked only one inning, and judging from the newspaper reports didn't have much more than a glove.

Bernie Wefers, the younger, who has essayed to follow in his father's footsteps on the cinder track with some degree of success, is not ellgible for the Columbia track team this apring because he is a Freshman, but he is making a determined bid for a place on the 'varsity nine.

The St. Louis Cardinals, Miller Hug-gins' despised hand, ran rough shod over the National league teams until stopped Monday by Cooper of the Pi-rates who let them down with three hits. There are many unfamiliar names on the Cardinal roster, but it boasts of some ball players.

Fred Mitchell was lucky to get Mer-kie from the Robins for the Cubs. Brooklyn took him last year from the Giants after Daubert had been disabled and he filled the bill acceptably. He is far from being ready for the dis-eard and should prove just the right man to fill the shoes of the disabled Vic Saier.

This advertisement is one of a series designed to effect closer cooperation between the company and its subscribers. There are three
parties to a telephone call—the person calling, the person called, and
the operator who connects them. The quality of service rendered
is determined by the spirit in which all three work together, rather
than by the individual effort of any one or two of these three persons.
We shall gladly send complete sets of the series to those desiring
them.

In most businesses, where the human element plays an important part, the product can be supervised during manufacture and inspected before delivery.

In the telephone business, the work of our "weavers of speech," although constantly supervised, stands as a finished product. Deficiencies are detected in two ways: first, by our own supervision (which, although strict and constant, necessarily cannot be complete); second, by reports from our customers.

On this inspection and these reports we largely hase our plans for service improvements. Therefore, we request telephone users, having service criticisms to make, to notify the chief operator as soon as possible after the occasion for criticism. Almost any error in a toll connection can be ascertained from the records, but a local call loses its identity so quickly as to be practically undiscoverable unless traced AT ONCE.

Constructive criticism is helpful. We welcome it when it is specific-when it describes when, where and how the trouble occurred, and especially when it so closely follows the error as to enable us to place the responsibility therefor and apply the proper corrective.

LIVELY AMATEUR HOUT

LIVELY AMATEUR BOUT

A lively amateur bout is in prospect at Medford tomorrow night when Tommy Fall, the national 108 pound champion and George Delano, N. E. champion, get together in a special hout. Fall is brimful of confidence that he can defeat Delano and when offered the bout, he jumped at the opportunity. Delano will outweigh the local midget by fully eight pounds but if he wins from Fall, it will only be after the hardest sert of a battle. Tommy is in good shape for the mill and nothing will please him better than to bring Delano's scalp back to Lowell.

LOCAL BUNCH TOOK COUNT AGAIN LAST EVENING - BASKETBALL SEASON OVER

Baskethall sang its swan song for this season in Lowell last night, when the Lowell Five was defeated for the second time by the All Stars of Bosion, a crack aggregation picked from greater Boston teams. The score was 22 to 16, the Hub quinlet showing the same ratio of superiority as last week, when they captured the game, 20 to 14. Earlier in the season the could never have beaten the Lowell Five, constituted as it was last

All Stars could never have beaten the Lowell Five, constituted as it was last night, but although last night's combination was the same man for man as has represented Lowell most of the season, it was a different team in spirit and aggressiveness.

The All Stars played a better passing game, worked faster, shot better and thought quicker, which four requisites just about spell victory. Although lowell was always within halling distance of the Hub men there never was a time during the three periods the locals looked capable of pulling out a win. The first period ended 5. to 3 in favor of the All Stars; the second period found them leading 13 to 7, and it was 22 to 16 at the close. The game produced any number of thrills. Padity Grant and Kid Allisonwere the stars for their respective teams and both men played sterling baskelsall. Grant shot five baskets and worked all over the floor, while Allison was in every play, followed the ball like a flash and caged one pietty baskel. Two of P. Grant's baskets were back one-hand tosses, and Bucky Low shot one gem for Lowell. While Paul Clark was in the game he caged three baskets and Mulvanity accounted for the other one.

The lineup, score and summary:

#### WANTS LIGHT ON HOME RULE

Lord Northeliffe appeals to America for an expression of public of German victory will vanish. Speed opinion on the Irish home rule question. The noble lord appears to be the day! strangely ignorant of the American policy on such matters as that of self government for Ireland. He does not seem to realize that England has made herself ridiculous in the eyes of the world over this question of granting home rule to Ireland.

In this country there is an all pervading belief in majority rule and wherever that principle obtains, the British method of allowing a small minority to exercise a veto power upon what the majority shall get, seems this year the lowest price reached has altogelaer too absurd to be countenanced by any nation claiming to be democratic.

In the home rule measure now on the statute books of England, there is the most ample provision against unfair treatment of the minority by the majority. With such safeguards why listen to the protests of a minority less than one-fourth of the population and whose objection is 5,000,000 eggs on August 1. It is not based upon religious intolerance? This is another undemocratic principle for which Lord Northeliffe will find no precedent in the fixed policies of the United States. If the Ulster minority feels that it might be unfairly dealt with in a new Irish parliament - a belief which if it exists is wholly unjustified-surely it can rely upon the imperial parliament to protect it in its rights. But the nationalists have repeatedly given the most sweeping pledges that nothing of the kind can is neutral. She has shown but little ever happen. They agreed that all the safeguards the Ulster men want proofs of neutrality in her negotiating shall be included in the bill, yet in spite of all this, the government basely betrayed the Irish parliamentary party and its distinguished leader who like millions of other Irishmen placed full confidence in the prom- flocking there as avowed enemies of ises of British statesmen only to be bitterly disappointed.

This movement offers an opportunity for utilizing the work of the young in a manner all classes of workers, men to fill the ranks of the army and navy; men and women to work in munition factories; and last, but not least, men, women and children to work on the farms and in the vegetable gardens which it is expected will be quite numerous. which every boy can be urged to enlist. We are opposed to the enlistment of mere boys for service in either the army or the navy. As war is conducted nowadays they cannot stand the hardships to which they will be subjected. Most of the wars of modern times were mere child's play compared to that which is now in progress in Europe. Life in the trenches is but one of many torturing features of the warfare that is altogether too severe for marches, the life in the trenches where men have to live, often knee deep in mud, with the bodies of their dead comrades scattered around them. Boy's of the high school and others of that age should be glad to have the opportunity to serve their country where they\_will not be exposed to danger. and where instead of hearing the roar of cannon and the groans of the wounded and dying, they will hear the awest music of singing birds; where they can enjoy the incffable charms of Nature, the pure air and the soushine of heaven, with all the blessings of peace, and yet render laudable service to their country in helping to increase the production of crops needed to feed the people-to feed our army and navy and if we have any to spare,

It is assumed, of course, that the hove sent out by the local bureau to work on farms will be fairly treated as to hours and wages. They should not expect to be paid as much as experienced men; but the farmers, we believe, can be relied upon to be entirely fair with them. It is only by mutual good will that this movement can be made a complete success. Let all who can, put their shoulder to the wheel and push on towards the goal of greater production on the farms, on the hay fields and in the gardens which are expected to be far more numerous this year than over before in this country.

# THE CAUSE OF GOUT. BRIGHT'S DISEASE, RHEUMATISM

(By VALENTINE M. PIERCE, M.D.)

According to the consensus of opin-ion of most medical men and scion-tists, such as Garrod, Minkowski, Hans, ion of most medical men and scientists, such as Garrod, Minkowski, Hans, Vogt and Reach, the cause of gout is due to an accumulation of uric acid in the blood. The same effect happens in rheumatism, and preceding the stage known as Bright's disease an auto-intoxication process has been going on the liver and kinneys could not do the work and the individual suffers the consequences. High living, the eating of meat more than once a day, overtaing, frequent chilling of the hody—all may contribute to the poisoning.

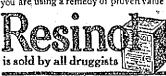

In such cases the very best treatment is to prevent or remove the cause Diet and exercise if possible, drink plentifully of water—a pint of hot water with a plece of lemon squeezed into it morning and night, and take before meals a tablet of Andric (double strength). This Anuric can be obtained at almost all drug steres and it drives the uric acid out of the system by stimulating the kidneys to better action. Thus many cases of gour, of rheumatism or Bright's disease may be provented or cured by taking this simple remedy in time, and in the painful and serious cases of rheumatism and gout it invariably relieves and often curves the worst cases.

#### MODEL

The department of agriculture has The department of agriculture has found in one of our eastern cities a back-yard garden which it regards as a model. This back yard is of a kind typical in cities which built houses on narrow frontages with common side walls, the houses being open to the air only in front and back, says today's bulletin from the national emergency food garden commission of Washing-

food garden commission of Washing-ton.

This particular house occupies the total frontage of a lot 25 feet wide. Behind the house is a yard extending back 70 feet to an alley. In the rear of the yard is a small tool shed, 5 by 10 feet in dimensions. The alley is cut off from the yard by a tight board femce, and the sides of the yard, from the house to the alley, are also bounded by fences of the same sort.

The owner of this property has laid the back yard off as a permanent garden. The side fences have been made to act as trellises for grape vines, having 14 of these vines planted at 10-foot intervals. Down each side of the yard, parallel to the side fences and 4 feet away from each, run walks, 2 1-2 feet wide, from the house to the alley, one of the walks turning around the shed to meet the other walk at the extreme rear of the yard.

one of the walks totaline the shed to meet the other walk at the extreme rear of the yard.

In the space between the walks, a space of 12 feet wide, is the vegetable garden proper. The owner, however, does not give up his back yard entirely to the garden. Immediately behind the house between the two walks is a concrete pavement 5 feet wide and running back from it a grass plot 15 feet long and 12 feet wide (the distance between the walks).

In the rear of the yard, opposite the shed, he has made his permanent asparagus hed in a spare 3 by 7 feet.

# What To Do When Backache Comes On

#### Many People Find Quick Relief in Foley Kidney Pills

When backache comes on, and it seems as if you can't stand the pain and pressure in your back and sides, do not feel that you must keep ou suffering till it wears itself out. It is more apt to wear you out and seriously affect your general health.

seriously affect your general health.

Get a bottle of Foley Kidney Pills and start taking them at once. They usually help from the very first doses. For backache is one of nature's danger signals that your kidneys are not in a sound and healthy state, that they are wrong; and when your kidneys are wrong; and when your kidneys are wrong; you may be sure you face a serieus condition.

Poley Kidney Pills have a direct and beneficial action on the kidneys, bladder and urinary organs. Their effect is quickly felt in improved kidney and oladder action, and in the pareing away of those penintul and alarming symptoms. No more backache, weariness and danging bains. No more painful, sleepless nights, having to rise time-street time. It will pay you to try Foley Kidney Pills promptly, as did Mr. J. W. Erris, R. 2. Cleveland, Ga., who writes us: "Surfered with a terrible backache. Every time I would lean or stoop over to one side, I'd have a painful catch in my back just over my kidneys. #### Hair Often Ruined By Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkait. This dries the scalp, makes the hair

This dries the scalp, makes the hair brittle, and rulus it.

The best thing for steady use is just ordinary mulsified coroanut oll (which is pure and greaseless), and is better than the most expensive scap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and casy to manage.

B. F. KEITH'S THEATHE Oh, there's ginger and pen to the bill at the B. F. Keith theatro this week and you'll want to see it when you know the fare that's offered. With a headline act called "The Dream Sura headline act called "The Dream and women disport, singing the latest of sopilar numbers, the show certainly is lopped off right rayalty. But don't miss Ed. Morton, the big fellow from Philadelphia, who sings shore upto the minute songs than any three neople who have been on the bill this year. Get his "Indoor Sports" unmer, and the charmingly descriptive "Night Time in Little Halv." They're corkers. And James B. Donovan and Marle Lee—there's a team for you that can't be beaten. Donovan, who has visited Lowell many a time, is still the same quiet, funny, effective Irish comedian, and Miss Lee is as airy and graceful as a butterfly. They play together beautifully. For pantonimic comedy, let one commend you to "The Bruken Mirror," which is played by the Schwarz Brothers. It is one of the best things of the show, and that is rating it very highly. And La Pilarica, the Spanish dancer, who came from the Royal theatre in Madrid and later, from the Teatro Nazionale in prise Party," in which nine young men later from the Teatro Nazionale in Mexico City, gives some theroughly Spaulsh dancing, at the opening of the show. The Gaudsmidts, eccentric clowns, and their black Spaulsh poodles, Misses White and Lewis, in a musical offering of their own concoction, Leonard Brown, the Lowell boy, singing his own songs and the Pathe News pictures constitute the remainder of this strikingly good show.

The last named star will appear in the important role in his splendid feature, "The Man Who Forgot," which is one of the most thrilling and absorbing plays in which Mr. Warwick has ever appeared—and he has always been seed in winners. "The Lonesome Chap" is the title of the Peters-lieff five act success which will be seen at the Merrimack Square theatre on the next three days. The story of "The Lonesome Chap" is out of the ordinary and has to ho with the solitary life and the lost love of a wealthy young miner. How a great happiness comes into his life and then for a time he thinks all is lost, is brought out in a clever, convincing and satisfying manner. Every one will agree that as a miner House Peters, his and stalwart of build, is physically fit, while in her role Miss Huff was never more enchanting. "In the past it has been necessary on like occasions for me to explain the constraint The Associated Press was under to observe the strictest neutrality on all controversial points due to the varied and manifold opinions of its membership.

"Today, thank God, this is not necessary, but the contrary is true, for no trace of neutrality is coursing in our veins, but red blood, and red blood alone.

"Today, neutrality has been cast aside and we in common with all true. Americans, are standing with our cousins to the north and those across the sea who, undermany flags are battling that government of the people, by the people, and for the people shall not perish from the earth."

"Never have the splendid ideals, not alone of our country, but of the world of democracy, been more greatly slated than on a night but a few weeks past in the capital deliberately, wisely, our chosen leader has assembled behind him a united nation, anxious to do its full part in this terrible ordeal by battle.

The \$3,000,000 mark has been passed in the effort to raise funds for the reside of the following of the residence had by the committee for Armenian and Syrian relief in New York city April 14 and 15. It was also stated that on the day the conference met an additional installment of \$50.000 had heen cabled. This and many other interesting and important facts were brought out at this meeting which was attended by nearly two hundred persons, including members of the committee and also 23 missionaries with others who had actually witnessed the perpetration of attocities in Turkey and had nersonally assisted in the work of relief. Former ambassador to Turkey, Mr. Henry Morgenthau, who served as chairman of the central relief committee, while he was in Constantinople made an address which thrilled all who heard it. His advice given in response to a question was that the committee should set as its immediate goal \$10,000.000 and he expressed the belief that this sum can easily be secured. Personally he is giving a large amount of time and thought to making this possible. In the effort to raise funds for the re-

AMSTERDAM, April 24, via London.

Major Moraht, writer in the Tages
Zeitung, says that the results of the
French offensive are unimportant.
Major Moraht writes:

"The possession of single portions of terrain, such as trenches, villages and horders of woods no longer plays a decisive role in deaply echeloned and fortlined zones. The alm of the German defense is, even at the cost of abandoning the dead together with war materials and portions of positions, to maintain our own strength while destroying that of the enemy and preventing him from attaining his strategical aim, which is to break through. For this purpose it is necessary to keep the fighting line mobile.

"Tactical success in modern battles is not judged by the gain of single portions of terrain or the amount of booty but depends on the complete physical and moral disorganization of the enemy, cwing to their loss of atrength

#### Ladies Improve Looks!

"Many ladies, old and young, suffer a round of torture with their nerves, and many are so frail, thin and bloodless that their splendid features are lost sight of, while a vain attempt to conceal the angularity of the figure deceives no one but themselves and really excites the pity or relicule of the world," said a well known largely employed practicing physician, in a recent lecture at a young ladies' college. "I do not mind exposing a little secret of mine to all such, as it can do no harm and may result in much happiness and health. It is simply this: Any thin, bloodless, nerve-tortured man or woman can become as fit as the fittest by taking regularly for several months an easily obtained pharmaceutical product known by the profession and pharmacists as three-grain hypo-nuclane tablets, but up in scaled packages with directions for home use."

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

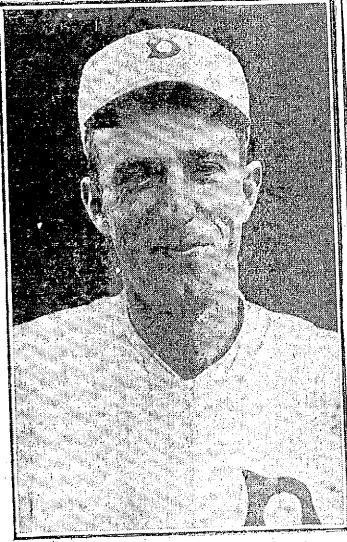

Ridgway, Penn. - "I suffered from female rouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." - Mrs. O. M. Rhines, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga.-"I want to tell you how much I have been benefited by Lydia B Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited".-Mrs. W. E. Lindsey, R. R. 3, Tennille, Ga.

# NEW MERKLE DEAL RECALLS PLAY THAT COST GIANTS A PENNANT

CHICAGO, April 25—Fans are asking here if Fred Merkle will fill the lole at first base caused by Vic Saier who broke his leg. Merkle, long first baseman of the Giants and last year with Brooklyn, was bought by Chicago at a price not made public, but Chicago takes over his contract, which has one more year to run at \$6000 for the season. This deal recalls vividly that now famous play in 1908 when Merle, by failing to touch second base in an all important game with the Chicago Cubs, cost the Giants the National league championship and in National league championship and in the play off of that game, which settled the pennant race; the

The peasants announced that they will undertake the spring sowing themselves but owing to the lack of seed this is said to be impossible. In consequence the sowing is likely to be much delayed and a serious shortage of crops is feared.

Peasants conferences are being or-ganized in every province of Russia to discuss peasant needs. One char-acteristic resolution demands that all and which private land owners can-not sow must immediately be sur-rendered temporarily to the peasants. some districts toward land owners. Bessarablan peasants in one instance sacked a country house and estates belonging to a rich family. The peasants of the Tamhov government surrounded the houses of the land owners and compelled them to sign documents surrendering their lands. In some parts of Bessarabla the country people are highly readinously and in one district especially the Odessa military authorities have taken strong measures to suppress a counter revolutionary movement.

STOVE REPAIRS

LONDON, April 25—Despatches from Petrograd report that the revolutionary spirit is manifesting itself in the rural districts of Russia, bringing the long standing agrarian troubles to head. Notwithstanding the organization of food committees which are doing their best to make the peasants understand that the lend question cannot be wisely sectied until the constituent assembly is elected, the peasants are inclined to take the matter into their own hands.

Soldiers visiting their rural homes with or without leave, spread the necessity of giving an adequate the peasants against the land owners. This is chiefly the case in the Saratov goevernment, where the people often are inclined to be turbulent. The peasants here, after passing resolutions of confiscation have proceeded to take possession of the lands and drive the land owners away.

The peasants amounteed that they
